Specifications

Engine type	4-stroke, air-cooled, SOHC
Engine displacement	149 cm³ (9.0 cu. in.)
Bore x Stroke	57.3 mm x 57.8 mm (2.2 in. x 2.2 in.)
Transmission	5-speed
Fuel System	Carburettor
Starter System	Electric and kick
Overall Length	2,070 mm (81.5 in.)
Overall Width	825 mm (32.5 in.)
Overall Height	1,165 mm (45.8 in.)
Wheelbase	1,360 mm (53.5 in.)
Ground Clearance	244 mm (9.6 in.)
Seat Height	825 mm (32.5 in.)
Weight	139 kg (306 lbs.)
Suspension - Front	Telescopic, coil spring, oil damped
Suspension - Rear	Link type, coil spring, oil damped
Brakes - Front	Disc
Brakes - Rear	Drum
Tyre - Front	90/90 R19 52P tube type
Tyre - Rear	110/90 R17 60P tube type
Fuel Tank Capacity (L)	12.5 L (3.3 / 2.7 US/Imp gal)

FEATURES

At the heart of the DR150 is a proven 149cc air-cooled, single-cylinder, four-stroke engine, producing approximately 11.8 hp at 8,000 rpm and 11.6 Nm of torque at 6,000 rpm. Paired with a smooth five-speed transmission, the engine offers usable low-to-mid-range power.

Designed for simplicity and longevity, the air-cooled motor keeps maintenance straightforward – ideal for rural environments. Designed for rural environments where reliability matters, the DR150 features both electric and kick-start systems, giving riders added peace of mind when working away from sheds, power or assistance. The high-tensile steel frame contributes to durability and stability, while keeping wet weight to a manageable approximately 139 kg, making it easy to handle across uneven ground.

Features include semi dual-sport tyres (19-inch front and 17-inch rear), a clear digital instrument display, front disc brake with rear drum brake, and robust lighting designed to support early starts and late finishes.
